Light Curves status (MJD and phase)

APC, Feb. 2018

B. Khélifi

GitHub status

- Issues
  - #1276 : Flux point estimator API
- Pull Request
  - #1214 : Add e_reco user binning for point-like simulation
  - # 1234 : Adding a class to calculate phase folded light curve
  - # 909 : Add first version of Phasogram class
  - # 1141 : Add robust periodogram to gammapy.time
  - # 1140 : Improve spectral point upper limit options

- ToDo List
  - Define requirements and code structure (Phase, MJD)
  - Make a full script to compute phase (PINT) and make a phasogram
  - Test the current LC functions and identify issues
  - AoB
